Forecast for Saturday 18 Feb 2023

Weather: Heavy rain overnight will clear south but remaining cloudy for much of the day, with thicker cloud forming in the west, chance of a few cloud breaks or brighter spells further east of Crickhowell.

Chance of cloud-free hill tops above 600m: 40% low cloud will form in association with light rain and drizzle, improving to 80%, some low cloud lingering in the west.

Low cloud and visibility: Scattered or broken low cloud layers above 500m in the morning will mostly lift and clear except for western upslopes. Visibility will be poor at times in light rain and drizzle initially, but improving and becoming good for much of the rest of the day, perhaps dull at times around The Black Mountain and other western hills.
